

1-to-2 beam splitter FC-FC

This design is extremely flexible, allowing one to use different fiber types on different ports, and different beam splitter optics inside. Custom designs combining circulators, polarizing splitters and non ...

The FC Series PM fiber optic coupler uses micro-optic technology in a compact package, offering exceptionally high polarization extinction ratio and broad operational wavelength coverage.

Fiber-based polarization beam combiners (PBC) or polarization beam splitters (PBS) are used to couple two orthogonally polarized light beams into one optical fiber, or to separate the orthogonal linearly ...

It features good uniformity, low excess loss, and very low polarization sensitivity. The device is ideal for splitting or combining light with exceptional performance over a wide wavelength range.

Description: 780nm 2X2 Polarization Beam Splitter, 0.5W power, P grade, PM780 fiber for port 1 & 2, 0 degree alignment output, with 900um tube, 1.0m fiber length, and FC/APC connectors at all ports.

It features good uniformity, low excess loss and very low polarization sensitivity. The device is ideal for splitting or combining light with exceptional performance over a wide wavelength range.

These beamsplitters have extinction ratios of $>1000:1$ (T P:T S). The average p-component transmission is $>90%$ while the average s-component reflectance is $>99.5%$ for each beamsplitter.

Polarization Beam Combiner / Splitter Features: Low Insertion Loss High Extinction Ratio High Stability and Reliability

This fiber-coupled Beam Splitter 1 ? 2 is a compact opto-mechanical unit that splits a fiber-coupled source into 2 output fiber cables with a fixed splitting ratio and a high efficiency. The input port is fiber ...

Single-Stage Isolation Polarization Beam Combiner Beam Splitter from Fiber-MART is widely used in EDFA, raman amplifier, fiber sensor, telecommunications systems, 1064, 1310, ...

1 m of $\pm 900 \pm 181$ m Jacketed Fiber on Each Leg Choose from FC/PC or FC/APC Connectors Thorlabs" Single Mode Fiber-Based Polarization Beam Combiners (PBC) or Splitters are designed to either ...
