

# 100G 200G 400G Optical Module Manufacturers

We offer optical modules supporting speeds from 1G to 400G, ideal for expanding network infrastructure in data centres and telecom operators. Find out how easy it is to connect equipment from different ...

Compatible optical transceivers 1G, 10G, 25G, 40G and 100G in multiple form factors including SFP, SFP+ XFP, QSFP+, QSFP28 and CFP with a lifetime warranty.

We manufacture optical transceivers and high-speed copper cables in-house, from legacy links to 1.6T, giving hyperscalers and AI networks control over compatibility, supply, and ...

Whether you're upgrading core switching, expanding a hyperscale data center, or deploying AI-driven workloads, our 100G-400G transceivers deliver the speed, efficiency, and stability required for ...

Direct OEM/ODM manufacturer of 100G/200G transceivers for AI clusters & hyperscale cloud. 100% tested 100G QSFP28, 200G QSFP56, QSFP-DD & CFP2 solutions.

100G/200G/400G variants Support for Ethernet/OTN clients, and line-side transmission of 100Gbps QPSK modulation up to 400Gbps 16QAM Supports an expansive list of interoperability modes ...

Explore the top optical transceiver manufacturers and their market share. Stay informed about revenue figures and the latest developments in the industry.

Benchu Group is a professional 100G/200G/400G/800G Modules supplier,supply Optical Transceivers for sale,custom at factory price!

This technology allows the 400G QSFP112 port to self-adapt and split into two independent 200G channels, creating a seamless connection solution with 200G QSFP56 Adapters without requiring ...

Innolight Technology Coherent Cisco Acacia Broadcom Accelink Eoptolink Hisense Broadband Intel Neo Photonics Source Photonics Source Photonics is a global manufacturer of optics and photonics solutions, providing high-performance optics for data center, telecom, and industrial applications. The company's portfolio includes optics and photonics components, modules, and platforms for 100G to 400G applications.
