

Optizone Technology has been developing and producing high power laser components since 2007, and has mass-produced Fiber Optical Cable since 2015. It is available to customize the FOC series, ...

We provide PM patch cords at different wavelengths (from 350nm to 2100nm). Those patch cords are made using best-known PM optical fibers (such as Fujikura PM Fibers or Nufern PM Fibers) and first ...

We are a professional manufacturer of Fiber Optical Cable Suppliers,Factories,and can provide best Fiber Optical Cable here.

These polarization-maintaining fiber patch cords offered by Idealphotonics feature high-quality, narrow-pin ceramic FC/APC connectors on both ends.

It consists of a fiber adapter interface, a metal housing, and an optical lens group, enabling fiber connection, protective heat dissipation, and beam shaping. Remarks: Lightrun can customize various ...

1064nm Single Mode optical patch cords are widely used for linking the equipment and components in the fiber optic network. They are with various kinds of fiber optic connector types, including FC, LC, ...

High-performance multi-mode fiber with 1064 nm wavelength ensures reliable data transfer for FTTH applications. Durable 0.9mm loose hose design provides excellent protection and ...

Thorlabs offers patch cables with a coreless end cap and an antireflection-coated FC/PC connector on one end. The AR coating provides <math><0.25\%</math> reflectance in the 1030 - 1120 nm range and minimizes ...

CSRAYZER"S High Power Laser Cable QBH Series Product, has the performance of low transmission loss, high carrying power, high reflection endurance, water cooling and safety interlock, ...

Max. Tensile Load N 5 Fiber Type PM 980 Panda Fiber Operating Temperature ? -5 to +70 Storage Temperature ? -40 to +85 *Above specifications are for device without connector
