

LW-ODB-16B Fiber Terminal Box FTB integrates fiber cable fixation, storage, splicing and distribution in both outdoor and indoor wall mounting and outdoor pole mounting box.

The internal design of the GSG-FDB-16B Fiber Optic Distribution box provides additional protection for fiber optic connections, ensuring they remain secure and undamaged during operation.

HYBRIFLEX(TM) Distribution Box is part of the cabling solution for Remote Radio Units. It is mounted at the top of a tower near the RRUs and acts as an interface between the riser cable and ...

The material of this box is usually made of PC, ABS, SMC, PC+ABS or SPCC. The box is suitable for fiber terminational point to complete connection, distribution and scheduling between ...

The 16 Ports Fiber Optic Terminal Box is a robust, weatherproof enclosure designed for efficient fiber termination and distribution in FTTH and FTTB networks. Made from flame-resistant ABS with an ...

The fiber splicing, splitting, and distribution can be done in this box, and meanwhile it provides solid protection and management for the FTTx network building.

The Fiber Termination Box provides a high density wall mounted solution for next generation networks, which aims to provide and manage maximum numbers of fiber termination in a limited space.
