

2 5G Coherent Optical Module for Greek Overseas Warehouse

Click to get your 2.5GBE SFP transceiver modules from nearby warehouses. 30-Day Free Return. Trusted by 260K+ Enterprise Users.

Designed to transmit and receive data in both directions on a single fiber for 100G and beyond. Provides an operationally efficient and cost-effective way for telecommunications and cable operators to ...

Get the pluggable module performance you need from the manufacturer of choice for all major networking equipment vendors worldwide.

Through our advanced, high-performance, and highly reliable optical device technologies and products, we are shaping and supporting the networks of the future. NEC has been developing and ...

Unlock the power of Multi-Gigabit speeds with Wolontek's 2.5G SFP Modules. Designed as the perfect upgrade path for modern networking, these transceivers allow you to boost bandwidth from 1G to ...

These small, modular optical interface transceivers offer a convenient and cost-effective solution for an array of applications in the data center, campus, metropolitan-area access and ring ...

Coherent optical module refers to a typically hot-pluggable coherent optical transceiver that uses coherent modulation (BPSK / QPSK / QAM) rather than amplitude modulation (RZ/ NRZ / PAM4) and ...

GIGALIGHT's 2.5G SFP series optical transceiver modules are widely used in synchronous optical networking (SONET OC-48 / SDH STM-16) and are compatible with Gigabit Ethernet and 1G/2G ...

A suite of carrier-grade modular platforms that support a wide range of services and traffic management features, coupled with the latest generation of efficient, high-capacity coherent optical engines.

All modules satisfy class I laser safety requirements. The transceivers are compatible with SFP Multi-Source Agreement (MSA) and SFF-8472. For further information, please refer to SFP MSA.
