

The plethora of fiber optic cable types can seem overwhelming, but choosing the right cable for the job is important. Read on to learn what fiber optic cables are and which cables you need.

With 2 billion kilometers of fiber optic cables installed around the globe, Corning continues to lead the industry in product quality and innovation.

This is a black 2000 foot spool of indoor/outdoor rated fiber optic distribution cable intended for long distance runs at high speeds. It is composed of 2 singlemode fibers (9 micron core) inside a water ...

CommScope designs and manufactures a comprehensive line of fiber optic cables--from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

Fiber Optic Cable Types Fiber optic cable is designed to transmit data using light signals instead of electricity, making it faster, more secure, and immune to electromagnetic interference compared to ...

The Indoor / Outdoor 2 Strand Fiber Distribution Cable - Singlemode 9/125 micron, Riser Rated - 2000FT is used in trunking, LAN, and distribution applications where small size, lightweight, and ...

Industrial Fiber Optics is a world leader in manufacturing polymer and large-core silica optical fiber cable assemblies. We specialize in providing leading edge solutions and manufacturing technology ...

This is a black bulk 2000 foot spool of indoor/outdoor rated fiber optic distribution cable intended for large installations of short range runs at 10 Gigabit speeds.

The cable has 2 singlemode fibers that are designed to function with 1310-nm or 1550-nm fiber optic equipment. It is a common option for high-speed data transmission since it has a reputation for being ...
