

Advantages of the KF86 Relay Protection Tester

Compact 6-phase relay test set with high accuracy & full solution (complying IEC61850 sampled value and GOOSE), fully meet all the requirements for detection and debugging of IEC61850 IEDs, Merge ...

KINGSINE KF86 has light weight 10kg, very small size (390mm*256mm*140mm) for easy carry on flight journey. 6x20A, 6x300V analog output channels.

It features advanced capabilities such as multi-core SOC architecture, extensive connectivity options, and support for various testing modules, making it suitable for a wide range of electrical testing ...

As a highly flexible solution for protection relay testing, the Kingsine KF86P universal relay test kit utilizes innovative technology, module design, and a simple internal structure, ensuring a higher level ...

KPM relay testing equipment with high current rating, precision & advanced software. Ideal for distance, differential, df/dt & protection relay testing.

o Provides real-time feedback on test results with intuitive logic input/output (I/O) selections, simplifying routine protection verification and complex scenario simulation.

Advantages of the KF86 Relay Protection Tester
