

Anti-electrostatic Tracking for AC Transit Cabinets

Protect sensitive components from ESD damage during assembly, testing and inspection. Adjustable anti-static laminate top protects from static electricity. Range of protection: 10^6 to 10^9 ...

Explore ESD workbenches and anti static workstations designed for electronics, labs, and manufacturing. ESD-Proof, ergonomic, and fully modular.

Transit Packs offer a safe and easy way to transport and store any device that is sensitive to static charge. Transit packs are manufactured using a coating to provide a faraday cage, with optional ...

We offer both Electrically Conductive and Static Dissipative mats. The difference between the two is that conductive mats disperse the static electricity quicker than static dissipative and thus should be used ...

Choose from our selection of static control storage cabinets in a wide range of styles and sizes. Same and Next Day Delivery.

Discover anti-static mats that protect your electronics and keep your workspace organized. Ideal for soldering, assembly, and a wide range of repair projects.

These matting solutions provide static-dissipative surfaces that reduce the risk of electrostatic discharge while maintaining a clean, controlled work environment.

ACL Staticide [®]; Conductive Trays provide protection for static sensitive electronic components during handling, transportation, and storage. Stack-able and durable, Staticide [®]; Conductive Trays have ...

Shop DigiKey's large in-stock selection of Anti-Static, ESD, Clean Room Products. View inventory, pricing and order now for same day shipping!

NoTrax anti-static rubber mats are specially formulated to drain static electricity from workers, avoiding unpleasant static shocks while safeguarding equipment.
