

Of the two bridges built across this river, the Chamberlain Bridge was built as a draw bridge to allow large ships to cruise through the inlet and its name is in honour of the Colonial Secretary who helped ...

Originally built as a swing bridge in 1872 and named after Joseph Chamberlain, it was rebuilt as a lifting bridge in 2005-2006. The bridge offers stunning views of the Careenage and is a popular spot for ...

In 1872, this was a swing bridge across the marine inlet channel of the inner basin of the Careenage (Constitution River) at Carlisle Bay. The outmoded steel structure was dismantled and ...

The Chamberlain Bridge separates the inner and outer basins of the Careenage which is a safe harbour for many catamarans, fishing boats and other pleasure craft. Most craft remain in the outer basin ...

The bridge is named after Joseph Chamberlain, the British Secretary of State for the Colonies, and it allows entrance into the inner basin from the outer basin of the Careenage.

Chamberlain Bridge is one of two bridges that cross the inner basin of the Careenage, Bridgetown's marine inlet channel. The original swing bridge was built in 1872 but has recently been replaced with a ...

A bridge overlooking the Parliament Buildings and luxury boats parked in the water. This is a great area to come for a walk and enjoy a nice sunset over the water.

A bridge overlooking the Parliament Buildings and luxury boats parked in the ...
