To distribute goods, many firms establish offices in La Paz, Santa Cruz, or Cochabamba, with sales agents in other target cities. It is very common, especially in the case of machinery and ...

OverviewElectricity supply and demandAccess to electricityResponsibilities in the electricity sectorRenewable energy resourcesHistory of the electricity sectorTariffs, cost recovery and subsidiesInvestment and financingIn Bolivia, the National Interconnected System (SIN) connects major population centers and represents 83% of the installed capacity. The SIN provides electricity to the largest cities and operates in the Departments of Cochabamba, Santa Cruz, Oruro, Potosí and Chuquisaca. Its grid extends over 1,200 miles and covers the central and southern parts of the country. The population in the northern and western parts of the country remains largely unconnected to the national grid, either served by the off-grid syst...
