

This 4-piece digital LDR light sensor module set features adjustable threshold sensitivity via built-in potentiometer and dual output modes (digital and analog) for versatile light detection applications. ...

This Sensor LED Module features ambient-light detection and multiple color options, ideal for retail displays, packaging and signage. Customizable for OEM LED lighting projects.

SunshineOpto is a professional High-Power LED module and optical solutions supplier from China. We specialize in customized LED module and led lens 16years.

Chips 4 Light is your expert for specialty lighting with customized LED modules and optoelectronic solutions in the fields of medicine, sensor technology and industry.

With these sensors and lighting controls from Warehouse-Lighting , you can easily program your lights to stay on or off depending on room occupancy. Our selection of sensors gives you plenty of ...

LM393 Light Sensor Module: Equipped with LM393 voltage comparator chip for accurate light intensity detection and reliable signal output. Adjustable Sensitivity: Built-in potentiometer allows ...

These modules range from compact photodiodes to advanced ambient light sensors suitable for automatic lighting and environment monitoring. They're reliable and simple to use, ...

It contains both infrared and full-spectrum diodes, which can measure infrared, full-spectrum or human visible light respectively. The TSL2591 light sensor has a huge dynamic range of 600 million:1.

These modules range from compact photodiodes to advanced ambient light sensors suitable for automatic lighting and environment monitoring. ...

This collection features flexible boards, modules and kits designed to make learning about programmable light systems engaging and hands-on. Perfect for exploring coding, electronics and ...

LM393 Light Sensor Module: Equipped with LM393 voltage ...

We supply OEMs, integrators, and engineers who expect precision. Whether you need a standard light sensor or a custom optical module, our team can help you get exactly what your system requires.
