FOPM-201 optical power meter is a portable, handheld tester that can be carried in the field without being cumbersome or adding to your already heavy load of tools and equipment.

Santec offers a comprehensive range of Optical Power Meters designed to meet diverse testing requirements in fiber optic applications.

Coherent has the right meter for you, whether you're performing high accuracy, multi-parameter data acquisition over many hours in the lab, or making a quick laser adjustment in the field.

Integration, automation, and ease of use are at the core of every VIAVI optical power meter found in the lab, field, or production floor. As a result, we offer some of the best optical power meters on the market.

Precision optical power meters for characterizing continuous and ...

Our handheld optical power and energy meters are plug and play compatible with our wide range of calibrated optical sensors for the highly accurate and repeatable optical measurements required in ...

Precision optical power meters for characterizing continuous and pulsed laser systems. Essential for R& D, laser manufacturing, and fiber optics.

Low cost, palm-sized broadband, optical power meter for singlemode or multimode networks to measure and save absolute (dBm) or relative power (dB) levels. Standard power range (telco) or high power ...

# **Customized Venezuelan Air-Cooled Optical Power Meter**
