

Die-cast housing for optical communication module

Since its establishment, we have provided high-quality mold solutions to many well-known companies, including automotive giants such as Tesla, BYD, and ...

From custom-designed enclosures to high-performance thermal management systems, CastMold delivers precision aluminum die-cast components that meet the stringent demands of modern ...

With more than 15 years of experience in precision die casting, we focus on providing high-reliability die casting optical transceiver housing solutions for the telecommunication industry. Our housings are ...

Zinc Alloy Die Castings Attribute Technical Specifications Material Grades ZAMAK 3 (ZnAl4Cu1), ZAMAK 5 (ZnAl4Cu1Mg), ZA-8, ZA-27 Key Characteristics High impact strength, Superior fluidity, ...

Die-Casting Base is high-quality die cast components. Die casting is a precision casting method, it uses high pressure to melt metal and then press it into various shapes of metal molds. Produced using a ...

Discover the role of optical module housings in data centers & 5G. Learn about materials like ceramics & alloys, thermal challenges, and explore Link-PP's optical transceivers.

Discover the 400G QSFP SR8 Optical Module Housing, designed to revolutionize Enterprise Network Data Centers. Constructed with superior Zinc Alloy Die Casting Metal SFP to deliver unprecedented ...

Precision die casting offers numerous benefits for the production of optical transceiver housings. Its ability to create complex shapes with tight tolerances, along with its cost-effectiveness, ...

Since its establishment, we have provided high-quality mold solutions to many well-known companies, including automotive giants such as Tesla, BYD, and Volkswagen, as well as leading communication ...

Discover low-priced SFP die cast hardware housing for optical modules with all-metal construction, 850nm DDM SFP+ SR MMF compatibility, and 300m range. Available for purchase starting from just ...

Each housing undergoes rigorous dimensional and performance testing to guarantee consistent fit and function. Designed for use in high-speed optical transceivers, data center switches, and network ...

Die-cast housing for optical communication module
