

Lumina Power offers a complete series of CW & pulsed laser diode, high power laser diode driver, laser diode controller, and module which is ideal for OEM applications.

For a complete explanation of laser diode driver package, size, and mounting option comparisons, download the Selector Guide. For low noise operation (constant current mode only), our QCL drivers ...

The EPC9156 development board is primarily intended to drive laser diodes with short, high current pulses. Capabilities include minimum pulse widths of < 2 ns, peak currents > 10 A, and bus voltage ...

Discover the industry-leading reliability and performance of TRUMPF's laser diode chips. We offer laser diodes to meet your specific needs. A high-quality product and unmatched customer service is ...

The LMH6525/6526 is a laser diode driver for use in combination DVD/CD recordable and rewritable systems. The part contains two high-current outputs for reading and writing the DVD (650 nm) and ...

It supplies up to 250 mA of drive current, supports laser pin configurations A, D, and E, and is ideally suited for demanding diode laser applications such as operating a laser diode in an external cavity ...

Laser Diode Drivers by Opt Lasers. Here you can find: high-power diode drivers, medium-power diode drivers. Custom made laser diode controllers.

Laser Drivers are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many laser driver manufacturers including Analog Devices, MACOM, Texas ...

Laser Driver power management integrated circuits (PMICs) are used to provide one or more controlled current sources for supplying semiconductor laser devices from a nominally constant-voltage power ...

Semtech's Laser Driver and Transceiver IC family includes superior laser drivers and receivers integrated for low cost, high performance optical communications systems.
