

Our distribution boxes are perfect for industrial environments, catering to automation, robotics, and processing facilities. They provide cost-effective solutions through automated dispensing and ...

Modular enclosure system for individual power distribution solutions and a broad product range for signal distribution. Available in all forms and configurations, also in special versions like ergonomic sensor ...

Understand distribution boxes (DB boxes) in 5 minutes. Learn about types, components, functions, and uses. Find the perfect DB box for your needs.

This product is part of the PacDrive 3 range, an offer of distribution boxes for Lexium 62 ILM daisy chains. This distribution block features 1 input and 4 outputs. The distribution block with SERCOS III ...

Enclosure made with modular profile. Able to withstand high electrical and mechanical voltages. A unique design made in A304L stainless steel (polished), with a capacity of up to 624 modules in a ...

Whether it's for energy distribution or multimedia connections, these boxes offer a secure and adaptable solution. Available in 16- and 32-module base options, they can be customized to your needs thanks ...

Enclosure made with modular profile. Able to withstand high electrical and ...

ABS plastic surface distribution box, with 36 modules in 3 lines of 12 modules. The distribution box allows the assembly of standard modules of 18mm width, on DIN rail.

Learn what an electrical distribution box (DB/distribution board) is, its main components (MCB/RCCB/RCBO, SPD, busbar) and common types. Includes a quick selection guide for ways, IP ...

Some advanced distribution boxes also include extra features like energy monitoring units and communication modules. These allow for real-time data tracking and remote control, improving ...

The MDB-M24 is a wall box or module that allows splicing, patching, splitting or storage of optical fibres. A MDB-M48 version is also available (see datasheet WM064-01 Modular Distribution Box MDB-M48) ...
