

# Dominic 10 Gigabit Industrial Switch Manufacturer

The DIS-100G-10 features a rugged industrial design suited for deployment in outdoor enclosures, factory floors, and remote installations. Its IP30-rated metal housing supports durability in industrial ...

Our rugged 10G switches provide reliable performance for critical industrial networks. Equipped with advanced features like VLAN, QoS, link aggregation, and redundancy, these ruggedized 10G ...

For industrial applications involving harsh conditions, we have L-com's IES series, as well as from other manufacturers like Planet, EtherWAN and Hirschmann. The IES series has a plug and play operation ...

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

The DYMEC Industrial Series is a range of rugged and compact Industrial Ethernet switches designed to power and connect various industrial applications in a highly reliable - non-stop network.

Our switches are built for high network flexibility, cyber security and durability and are suitable for use in mission-critical environments.

Full-Gigabit Industrial Ethernet Switches with 10G Uplink Designed to accommodate diverse networking needs, the switches offer a versatile mix of ports to ensure high-speed data transmission from field ...

Our industrial layer 2 managed switch models feature copper Gigabit ports for high-speed device connections, and SFP slots that support both 100Base-FX and 1000Base-FX modules for long ...

WIWAV offers a wide range of industrial Ethernet switches, designed for use in harsh environments that allows you to build cost-effective, reliable network solutions.

TRENDnet's 10-Port Hardened Industrial Gigabit DIN-Rail Switch, model TI-G102, has eight dedicated gigabit ports, plus two gigabit RJ-45 / SFP shared ports. Users are able to connect eight devices to ...
