

These are the outdoor fiber optic cables you see strung along telephone poles (aerial), installed inside an underground duct, or even buried directly below ground.

The portfolio includes armored, non-armored and dielectric fiber optic cable designs, available with dry or gel-filled tubes. These cables exhibit unmatched stability and optical excellence.

The loose tube gel-free design is fully waterblocked using craft-friendly, water-swellaable materials, which means cable access is simple and no clean up is required.

Primus Cable 12-strand OSP dry loose-tube armored all-dielectric OS2 single-mode fiber cable for outdoor backbone, FTTH, and rugged long-distance installations.

feature a sub-unit design that simplifies fiber identification, provides eas access and routing of the fibers. It also increases cable durability with a dielectric central strength member. Opti-Core™; Fiber Optic ...

Berk Tek's Outside Plant Loose Tube fiber optic cables are designed for installation in environments such as aerial lashing, conduit and pathways that are subjected to wide temperature variations.

Outdoor Structured fiber optic cabling. AFL offers armored loose tube, heavy duty, gel-free, double jacket, single armor, non-armored, rodent resistant, MicroCore, OSP, FTTx and Uniflex optical fiber ...

Exceptional mechanical and environmental performance are the hallmark of this cable family. Indoor-Outdoor Loose-Tube cable combines Dry-Core technology with S-Z strand designs to create a robust ...

Outdoor dry core optical fiber Multi Loose Tube cable with polyethylene inner jacket, glass yarns as strength member and polyethylene outer jacket. Product feature: This cable has rodent protection by ...
