

Dutch High-Temperature Logging Optical Cable Factory

Discover all relevant Fiber Optic Cable Manufacturing Companies in Netherlands, including FibreMax and Leadcom Integrated Solutions

Examples include the well-known Dutch FttH pioneers Reggefiber and CIF, the Municipality of Rotterdam and Dutch KPN. In total, this involves more than 120,000 homes. For these projects we ...

Since its foundation in 1930, TKF has developed from a cable producer into a technologically leading provider of connectivity solutions. TKF offers a complete portfolio cable solutions for energy and data ...

Fibercore, in conjunction with selected partners, offer wireline logging cables that utilize Fibercore's hydrogen resistant, high temperature fibers. The optical fibers are protected in a hermetic metal tube ...

No matter where your project is, FibreMax cables are built to perform. As we look to the future, we've expanded our facilities and strengthened our role in the global energy transition, ensuring a reliable ...

We focus on power generation, distribution and utilization; specialized cable systems for high-tech industrial environments; and fibre optic connectivity for data and communication networks. TKH ...

HEC-Holland has a broad range of optical fiber cables for more challenging conditions. View our optical fiber cables products!

The temperature rating assumes a normal gradient for both temperature and weight. All values shown are nominal or typical values. Not for use in oil and gas wells. PROPERTIES

At Jiangsu Huaneng Cable Co., Ltd., we provide unparalleled tensile strength logging cables designed for deep-sea and offshore drilling applications. Elevate your project's reliability with us!

For use in higher temperature ranges, all optical fibers based on Fused Silica can be optionally equipped with heat-resistant coating materials. This extends the potential field of application to a range from ...
