

Edge computing optical circulators low noise FOB price

RF Circulators are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for RF Circulators.

They're characterized with low insertion loss, high isolation, high power handling, high return loss, low PDL, excellent environmental stability and reliability. They are ideal for fiber laser and ...

Ultra-Broadband Fiber Optical Short-IR Circulators (for OCTs) 840nm, 950nm, 1060nm, >100nm bandwidth, low PMD \$1141+ SKU: OCLT

With a standardized plug-and-play design, this series delivers high precision, low noise, and low power consumption, meeting the comprehensive demands of optical transmission systems ...

The gold plated OFHC copper body ensures minimum loss and that this loss reaches the lowest possible temperature to minimize thermal noise. The isolator/circulator is packaged in a slim coaxial ...

Explore our range of optical circulators for DWDM systems. Find low insertion loss and polarization insensitive designs. Perfect for fiber optic communications.

Get price quotes for Fiber Isolators & Circulators. Search, find, compare and shop for Fiber Isolators & Circulators on FindLight. Contact suppliers directly with one click.

FiberLife offers high-quality 3-port and 4-port optical circulators with superior design and performance, all at competitive prices. These non-reciprocal optical devices enable bi-directional transmission over ...

Thorlabs' Single Mode (SM) Optic Circulators are non-reciprocating, one directional, three-port devices that are used in a wide range of optical setups and for numerous applications.

Fiber Optic Circulators Features:

- o Low insertion loss
- o Miniature packages
- o High power handling
- o Wide wavelength range
- o Low cross talk
- o Center wavelengths 780, 850, 1060, 1310, 1480, 1550 nm
- o Low ...
