

FOT-930 MaxTester o Combines a light source, a power meter, a visual fault locator, a full-duplex digital talk set & a video fiber inspection probe

Tier-1 certification kit with power meter and light source, compatible with multiple duplex and multi-fiber connectors up to 24 fibers. Measures loss, length, and polarity in just 1 second, as per certification ...

The EPM-50 Power Meter provides highly accurate power measurements, as well as reference value setting capabilities. It offers power autonomy of 300 hours, for reliable, long-lasting performance in ...

Find the best optical power meters for testing signal strength with our expert guide. Compare top-rated models to ensure precise fiber optic network performance.

Multi-fiber Power Meter Insertion loss measurement Leading FasTesT performance: test MPO-12 cables at 2 wavelengths in just 1 second Comprehensive results combined on one page USB-C to USB-C ...

EXFO Optical Fiber Power Meter EPM-50 OPM Tester Range -60dB to 10dBm with 5 Wavelengths for Telecom Add to cart

Connected optical power meter: an essential tool for technicians installing or maintaining any fiber optic network (FTTx).

The EXFO FPM-302X is a handheld optical power meter designed for testing and troubleshooting fiber optic networks at 830nm. It provides accurate power measurements for single-mode and multimode ...

This highly efficient on-the-go testing tool is used for fiber tracing with tone detection, measuring absolute power (dBm) and insertion loss (dB). The visual fault locator has 3 modes (continuous, slow ...
