

List of terrestrial fibre optic cable projects in Africa is thus considered an important step to economic growth and ...

Africa has seen a major rise in subsea cable connectivity in recent years and together with the enhancement of regional and national fiber networks, the continent's connectivity matrix is ...

Anchored in Kenya, the fiber-optic cable will run through Uganda, Rwanda, the Democratic Republic of Congo (DRC), Zambia, Zimbabwe and South Africa, from where it will ...

The rise of fiber optics in Africa promises gains in productivity, education, and digital inclusion. Yet the continent faces a paradox: abundant international bandwidth, but often insufficient ...

The future of Africa's digital economy hinges on building a resilient, extensive, and affordable fibre-optic infrastructure. This backbone will catalyse innovation, improve service delivery, ...

The US tech giant is planning four digital infrastructure hubs in Africa to connect its newest underwater fiber-optic cables for the continent.

From boosting internet speeds and expanding connectivity to enabling economic growth and digital inclusion, the impact of fiber optic networks on Africa is both profound and far-reaching.

The rise of fiber optics in Africa promises gains in productivity, education, and digital inclusion. Yet the continent faces a paradox: abundant ...

This map shows the reach of WIOCC's regional fibre optic network, which reached 75,000-km during 2024. WIOCC's regional network comprises the national transmission backbones of its shareholders ...

The future of Africa's digital economy hinges on building a resilient, extensive, and affordable fibre-optic infrastructure. This backbone will catalyse ...

In most of the world, a large number of such cables exist, often amounting to robust Internet backbones. The lack of such high-speed cables poses a great problem for most African countries.

The expansion of fiber-optic networks across Africa is set to boost productivity, education, and digital inclusion. Yet the continent faces a paradox: while it now has ample international bandwidth, its ...
