

We offer a huge selection of fiber cables and adapters that help to ensure dependable fiber network connections.

GT-LCSTDS2Y-xM fiber optic patch cords are ideal for short distance patching applications. These fiber optic cables tested for insertion loss and reflectance on all connectors.

Premium Fiber Optic Patch Cords are designed to interconnect or cross-connect networks within data centers, Broadband CATV, Passive Optical Networks (PON), WDM or DWDM multiplexing, FTTH, ...

Learn about fiber patch cord types (single-mode/multi-mode, simplex/duplex, LC/SC/FC connectors) and expert tips to choose the best one for your network. Weunion offers high-quality fiber jumpers for ...

Supports 10G High-Speed Networks: ICC LC-LC patch cord provides optimal performance for 10 Gigabit Ethernet, Fibre Channel, and SAN applications in data centers. Compatible with VCSEL laser ...

Fiber optic patch cables are ideal for supporting high speed telecommunication network fiber applications. They are manufactured and tested in compliance with TIA 604 (FOCIS), IEC 61754 and ...

The SN #174; Fiber Optic Patch Cords is the ultimate designed and optimized for next-generation data rates, the SN #174; patch cord offers network operators the chance to densify their existing legacy ...

This guide walks you through every variable that matters: fiber type, bandwidth rating, maximum distance, connector compatibility, and real-world deployment scenarios. By the end, you'll ...

Built with a bend-insensitive fiber design, these patch cables can support high-speed bandwidth network applications such as Gigabit Ethernet (GbE), 10GbE, 40GbE, and 100GbE.
