

Fiber optic transceivers and industrial-grade switches

As technology progresses, these transceivers will continue to evolve, supporting advanced industrial and telecommunication networks. Understanding the right type of industrial fiber ...

Learn the practical differences between industrial and commercial grade optical transceivers -- temperature ranges, ruggedization metrics, certifications, cost.

Siemens" RUGGEDCOM SFP1132-1LX25 industrial grade 1 Gbps fiber optic long haul SFP transceiver operates within a wide temperature range (-40 to 85 °C or -40 to 185 °F) and provides high ...

CTC Union offers a full spectrum of products, including Industrial SFP Transceiver, Industrial Ethernet, PoE, EN50155 and E-Mark certified switches. CTC Union's goal is to provide reliable, temperature ...

VERSITRON has been the trusted source in Fiber Optic Communications by the US Government and Military since 1958. Below you can find a selection of our current Industrial Switch offerings.

With the patented digital diagnostic capabilities on the transceivers, the Ethernet Switch can monitor the link characteristics, such as receive optical input power, and provide early warning alarms to ...

The difference between an industrial switch and a fiber optic transceiver is that the fiber optic transceiver is actually a point-to-point industrial switch, which is just a photoelectric conversion ...

The Hirschmann line has a variety of transmitter and receiver options available, allowing users to choose the correct transceiver for each link in order to provide the required optical reach over fiber when ...

CTC Union offers a full spectrum of products, including Industrial SFP Transceiver, Industrial Ethernet, PoE, EN50155 and E-Mark certified switches. CTC Union's ...

Industrial gateways typically terminate uplink fiber from sensors, PLC concentrators, or edge compute nodes into a managed switch or industrial router. The transceiver family you pick ...

Explore industrial fiber optic Ethernet switches from a direct manufacturer. SFP, single-mode and multimode fiber switches available in unmanaged and managed designs.

Fiber optic transceivers and industrial-grade switches
