

Manufacturing businesses rely heavily on their automation, instrumentation and control data communications for industrial networking. When it comes to relaying signals between devices, ...

General purpose tray-rated cables include types for flexible control, control / signal, VNTC, power machine, and instrumentation applications. The tray rating allows installation on trays without metal ...

LFLEX Tray Cable (TC), 5 Conductor, 18 AWG, 600V, Copper, PVC/Nylon, Overall, 100% Foil tape shield; 70% tinned copper braid shield, Oil Resistant PVC, CSA, FT4

Cable tray is less expensive, more reliable, more adaptable to changing needs and easier to maintain. In addition, its design does not contribute to potential safety problems associated with other wiring ...

Designed for use in ventilated, non-ventilated, and ladder-type trays, raceways, direct burial, and exposed or concealed wiring in wet, damp, or dry locations down to -40°C. Ideal for Utilities, ...

Discover reliable tray and instrumentation cables for industrial use, featuring UV and moisture resistance. Explore various configurations for energy-efficient wiring.

Cable trays We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation. Our cable trays are produced in fit for purpose materials like stainless steel, ...

TC Tray Cables are installed in cable trays, ducts and conduit; they can also be used in direct burial applications. They are extensively deployed in manufacturing facilities, especially in process ...

TRAY CABLE PVC Jacket PVC/Nylon Insulation 90°C - 600 Volt - UL Type TC-ER* 14 AWG E-2
Color Code 05-03-2017

Designed for use in ventilated, non-ventilated, and ladder-type trays, raceways, direct burial, and exposed or concealed wiring in wet, damp, or dry locations ...

Northwire Instrumentation Tray Cables (ITC) are engineered to meet or exceed application requirements for factory floor automation equipment, material handling, sensors and transducers, process controls ...
