

# High-temperature resistant steel cable trays for field operations

Discover premium heavy duty cable tray systems engineered for maximum load capacity and environmental durability. Our industrial-grade cable management solutions provide superior ...

As a less-expensive alternative to conduit, and a stronger alternative than wire basket, and superior to generic tray, the Snap Track cable tray system saves on labor and reduces total installed costs.

For consistency with the corrosion resistance of accessories and cable trays, and minimise corrosion breaking lines due to the galvanic couple, we recommend the following assemblies:

At G.M. Engineers, we specialize in manufacturing high-quality cable trays that ensure secure and efficient cable management in industrial, commercial, and infrastructure projects.

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems available.

T& B Cable Tray offers cable tray systems fabricated from corrosion-resistant steel, stainless steel and aluminum alloys along with corrosion-resistant finishes, including zinc, PVC and epoxy.

Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. We also offer a ...

Choose from our selection of wire trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

SILTEC cable trays, heavy duty type, feature a reinforced construction with zigzag wires down the sides and double wires on the sides and at the bottom, providing these trays with a very high load capacity.

Select the right materials for cable tray use at high temperatures. Eaton's B-Line series offers guidelines on the proper cable management solution to specify for cable tray manufacturing.
