

# How to test the functionality of an FC interface

Characterize and validate the performance of a Fibre Channel FC-PI-6 channel design. This kit is designed for analysis of a host board and an optical module.

The SierraNet Family of Fibre Channel (including FICON) test platforms provides best in class traffic capture, analysis, and manipulation for testing physical link characteristics and application operations.

QLogic and Emulex are the two leading producers of FC HBAs, and many HBA drivers are provided in-box with the operating systems. If the drivers are not offered by your Linux distribution, ...

Effective fiber testing utilizes advanced tools such as Optical Loss Test Sets (OLTS), Optical Time-Domain Reflectometers (OTDR), and Visual Fault Locators (VFL) to diagnose and correct issues, ...

A virtual fibre channel (VFC) interface is a logical interface manually created on an FCF switch to simulate the functionality of a physical FC interface. To use a VFC interface, bind it to a physical ...

Port speed can be configured on a physical Fibre Channel interface (but not on a virtual Fibre Channel interface). By default, the port speed for an interface is automatically calculated by the switch.

This document is an overview of the architecture, features, and functionality of the PowerEdge MX networking infrastructure, including the steps for configuring and troubleshooting the PowerEdge MX ...

This document describes the configurations of Trill, FC and FCoE, DCB, and NLB Server Cluster Association.

AIT's compact portable Fibre Channel Simulation and Analyzer tool. Controlled and powered by USB or Ethernet.

Test and simulation applications for deployable Fibre Channel networks include the development of board and box-level systems and sub-systems, network integration, production test, and equipment ...

This section describes the tasks that you must complete before you test a Fibre Channel over Ethernet (FCoE) controller by using the Windows ...

Here's a list of commonly used Cisco MDS Fibre Channel (FC) switch show commands along with their explanations and descriptions.
