

Founded in 2002, Huijue Group is a high-tech service provider integrating the integration and application of intelligent network equipment and intelligent energy storage equipment.

Huijue Group's Mobile Solar Container offers a compact, transportable solar power system with integrated panels, battery storage, and smart management, providing reliable clean energy for off ...

Power rectification module efficiency > 96%, support module sleep function, save power consumption; Support battery intelligent management function to prolong battery life; support battery online test ...

The internal integrated lithium battery has the guarantee ability of backup power supply; With intelligent power-off function, remote control of each branch output on-off function;

These stations offer convenient charging solutions for electric vehicles, encouraging individuals and businesses to make the switch from conventional fuel-powered vehicles to more environmentally ...

Suitable for communication base stations, smart cities, transportation, and power systems, providing stable backup power and optical fiber connectivity in edge site scenarios

The Huijue Group's Optical-storage-charging application scenario is a typical application of microgrid energy storage. The core consists of three parts - photovoltaic power generation, energy storage ...

Founded in 2002, Huijue Group is a leading Energy Storage Equipment Manufacturers, a high-tech service provider integrating intelligent network communication equipment, new energy and applications.

HJ-EMS energy management and operation platform Introduction: The HJ-EMS energy management operation platform usually integrates a variety of functional modules, Discover cutting-edge energy ...
