

Low-loss fiber optic Ethernet switches for smart buildings in the ASEAN ten countries

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to ...

The TC3715 10/100 6-Port Ethernet Switch is a low cost, flexible bandwidth solution for high traffic industrial and commercial fiber optic networks. With distances up to 80km, it provides a 100Base-FX ...

Learn how to extend distances with fiber cabling to PoE, PoE+ and HPoE powered cameras, Wi-Fi access points, access control devices, HVAC controls, and other smart building devices.

Ethernet Switches with fiber uplink ports or all fiber switches, commercial grade, managed and unmanaged and PoE enabled are all available in this section.

Future-proof network architecture with a new generation of stackable fixed access switches that deliver security, scale, and flexibility purpose-built for an AI enterprise.

We offer solutions that provide seamless transmission and conversion from Ethernet media to multimode or singlemode fiber. Our Ethernet network switches with fiber ports comes in managed or ...

These Ethernet switches are meticulously crafted for industrial applications, offering a robust housing, compact design, and specifications tailored to withstand the rigors of industrial environments.

Managed and unmanaged Layer 2 and Layer 3 fiber optic Ethernet switches. With 10G SFP+ fiber optic transceiver modules, they meet your highest bandwidth demand.

UV-IR No-Gap Fiber Optic Switch System - Custom Configurations - Fiber-Fiber(TM) ultra broadband 350-5000nm, all fiber type, all wavelength, little distortion, bidirectional, latching, 70dB on/off

Discover fiber switches designed for reliable network connectivity. Browse 10G, 2.5G, and gigabit options to expand your bandwidth.

Low-loss fiber optic Ethernet switches for smart buildings in the ASEAN ten countries
