

Luxembourg RoHSAOC Active Optical Cable QSFP-DD

RTXM500-9XX 400G QSFP-DD to 2x200G QSFP56 active optical cables are designed for use in 400 Gigabit Ethernet links on up to 20m of multi mode fiber. They are compliant with the QSFP-DD MSA ...

Call, chat, email or meet for Active Optical Cable (AOC) connectivity support. Save up to 90% while improving deliverability & interoperability.

Discover how we power manufacturing and research across the world's most innovative markets -- from smartphones to EVs, from semiconductor wafers to medical diagnostics. This product is well suited ...

er longer distances in modern data centers and enterprise networks. Featuring QSFP-DD connectors on both ends, it supports data rates of 400 Gbps through eight 50 Gbps lanes, ...

Discover how we power manufacturing and research across the world's most ...

Built on reliable 850 nm VCSEL technology and with an integrated DSP, the module ensures superior signal integrity with a low power consumption of 8 W per end. Supporting cable lengths up to 100 ...

Our active optical cable assembly portfolio provides improved cable flexibility and longer reach as compared to both traditional passive copper and emerging active copper (ACC/AEC) solutions, ...

Small form-factor pluggable (SFP), quad small form-factor pluggable (QSFP), quad small form-factor pluggable double-density (QSFP-DD) and Octal Small Formfactor Pluggable (OSFP) in both straight ...

It provides a QSFP-DD-to-QSFP-DD copper direct-attach solution. QDD-400-CuxM cables are suitable for very short links and offer a cost-effective way to establish a 400-Gigabit link between ...

These cables utilize fiber wiring and are an ideal low-cost option for short reach applications. We also offer these cables in QSFP, QSFP56, QSFP+ and SFP+ formats.

The 400G QSFP-DD SR8 AOC is designed to transmit and receive serial optical data links up to 53.125 Gb/s data rate (per channel) by PAM4 modulation format over multi-mode fiber.

These AOC assemblies are QSFP DD MSA compliant, also backwards port compatible with existing QSFP modules and provide flexibility for end users and system designers.
