Protect your tray system with durable cable tray covers and barriers.

Metal Wire Cable Management Tray for Office, Studio and Home. Super Sturdy Under Table Cable Management - Black Cable Organizer. Need help?

Barriers help separate parallel runs of cables within a cable tray. Whether it is for EMI mitigation or simple organization, barriers provide a clean and easy to install solution.

Place your power strip inside the tray first, then feed each cable through the open front or side cutouts. Use included cable ties or Velcro straps to bundle cables together before routing them to your devices.

Whenever possible, power cables and data cables should be run in separate trays to prevent electromagnetic interference. When this is not possible, dividers should be installed to provide an ...
