

Modular Data Center Armor for Overseas Warehouses

Dorce delivers modular data center solutions through a fully integrated turnkey model that covers design, engineering, manufacturing, logistics, installation and commissioning.

We have delivered more than 500 data center modular rooms successfully to date, and are fully capable and ready to help you deploy a high-quality, secure modular solution that will reduce installation and ...

Our experts understand the reasons you'd need a modular building for your warehouse or distribution center, and we can develop a solution that empowers you to succeed.

Modular data centers assure scalability for future expansions, embody repeatable designs, and exhibit superior quality via factory control. This simplified assembly enables swift transportation by road, rail, ...

Built using ISO shipping containers, these rugged and portable units are ideal for edge deployments, disaster recovery, or environments with limited space. Containerized builds are cost-efficient, fast to ...

Our modular data centers reduce that timeline to just months, with full on-site assembly completed in 120 days. Designed for modular expansion, these systems can double their footprint with minimal ...

Armag modular data centers are purpose-built for mission-critical operations. Constructed with continuously welded "steel, these rugged data centers offer RF/HEMP, forced entry, ballistic, and ...

From substations and BESS integration to advanced cooling systems and network-ready enclosures, Hunter's engineered modules are designed for resilient, scalable and energy-efficient operation -- ...

Engineered for operational continuity in extreme and hostile environments, our modular solutions integrate redundant power systems, thermal management, and hardened enclosures to ensure ...

We ship these SCIFs easily via truck, air in a C-130 Hercules, C-17 Globemaster or C-5 Galaxy, or overseas via commercial container vessel. Don't confuse our modular SCIF units with a temporary ...
