

The splitters are based on plasma chemical vapor deposition technology and a patented fabrication process. They offer stable performance, high reliability, and specifications that exceed Telcordia ...

These splitters have splice-only inputs and outputs and are available in 250&#181;m or 900&#181;m formats for flexible routing. They support fiber-to-the-home (FTTH) and other access network builds and meet ...

PLC Fiber Splitter Solutions for FTTH Networks Low insertion loss, high uniformity, and stable optical performance for telecom operators, FTTH deployments, ODN networks, and data centers.

Our PLC splitters are tested based on the strictest standards of the industry, and we guarantee quality, turnaround and competitive pricing. PDR supply 4, 8, 12 and 24 fiber core configuration MPO with ...

FiberMania's PLC (Planar Lightwave Circuit) Fiber Splitters deliver high-performance and cost-efficient solutions for precise and reliable optical signal distribution. Engineered with advanced planar ...

A move towards PON's within the FTTX arena calls for a device offering low insertions loss, linear uniformity and high return loss, our splitters provide excellent specifications as well as complying to ...

Splitter and CWDM Modules Rack Mounted PLC Splitters up to 2&#215;64 and 8 channel CWDM Mux & Demux are popular items for PON and increased bandwidth applications.

PLC splitters are split or combine light from one or two incoming fibers to multiple numbers of outgoing fibers having 1 or 2 input channels and up to 64 output channels. They perform uniformly over a wide ...

Learn everything about PLC Splitter: what they are, how they work, and how to source the right one for your network. Complete buyer's guide.

FS PLC Fiber Optic Splitters, Bare/Blockless/ABS/LGX Splitter/Rack Mount Types, support 1xN light distribution, with low IL and PDL for high-reliability transmission. Deploying compact FS PLC Splitters ...
