

Our new cold aisle mechanical ceiling can be built to either raise or to drop. It easily resets, and uses the same shrink-away plastic as our standard ceiling panels, so redundancy is built in. It links directly to ...

High energy costs and accelerated energy consumption has forced data center managers to implement strategies to achieve separation between the hot and cold air in the data center.

Discover how the Nordic model blends capitalism and social welfare, compared to the U.S. system, with insights on taxation, social services, and economic efficiency.

Hot and cold air containment systems designed to maximize cooling predictability, capacity, and efficiency at the rack, row or room level. Intelligent air containment solutions that protect critical IT ...

Modular designed frame made of cold roll steel, with thickness $\geq 1.2\text{mm}$ to ensure the firmness and security. Aisle containment in the data center requires that cabinets are aligned in a hot aisle/cold ...

Find out how to improve your data center infrastructure efficiency, using the cold aisle containment or hot aisle containment solutions from Vertiv.

The goal of a hot or cold aisle configuration is to conserve energy and lower cooling costs by managing air flow. Designing the proper containment system requires lining server racks in rows (or aisles) with ...

The goal of a hot or cold aisle configuration is to conserve energy ...

At Nordic Naturals, we're committed to delivering the world's safest and most effective nutrients essential to health.

The Nordic countries consist of Denmark, Finland, Iceland, Norway and Sweden. Take a look at a map and you'll see all these nations form part of Northern Europe.

The Nordic countries have stunning landscapes, the northern lights, historic neighbourhoods and modern cities. There's a lot to love about the Nordic countries of Europe. If you are planning a trip to ...

Enhance data center cooling efficiency with this door frame adapter. It easily integrates with existing cold and hot aisle containment system, improving temperature control and overall performance.

The Nordic Region consists of Denmark, Norway, Sweden, Finland, Iceland, the Faroe Islands, Greenland, and \&\#197;land . You can find useful information about the Nordic Region and each of its ...

Nordic was established in 1983, headquartered in Norway, and has about 1450 employees across the globe. Our award-winning Bluetooth LE solutions pioneered ultra-low power wireless, making us the ...

From the mountains of Norway to the volcanic landscapes of Iceland, from the historic cities of Denmark to the lakes and forests of Sweden and Finland: this is the Nordic region of Europe. ...

Explore Nordic Cold Chain Solutions" temperature-controlled packaging products for the safe transport of food, life sciences, and other sensitive materials worldwide.
