

# North Macedonia ODM Single Fiber Bidirectional 25G

This series of products uses a single single-mode optical fiber for transmission, the center wavelength is 1270nm/1330nm, the distance can reach up to 10km or 30km, and it supports industrial-grade ...

Our 25G BiDi SFP28 40km Side B transceiver provides long-distance single-fiber connectivity. Transmitting at 1310nm and receiving at 1270nm, this bidirectional module supports up to 40km over ...

The SFP28 transceiver provides up to 20km of 25GBase-BX throughput over single-mode fiber (SMF) using 1330nm-TX/1270nm-RX wavelengths via LC simplex connectors.

The SFP28 transceiver provides up to 20km of 25GBase-BX throughput over ...

SFP28 transceiver that supports 25G connections up to 10 km using single-mode fiber with a duplex LC UPC connector.

This series of products uses a single single-mode optical fiber for transmission, the center wavelength is 1270nm/1330nm, the distance can reach up to 10km or ...

The 25G BiDi SFP28 transceivers are designed to enable bi-directional 25G serial optical data communications using either 1270nm/1330nm wavelengths. These modules are ideal for use in 25G ...

Using an innovative solution that combines our industrial temperature solutions with bidirectional support ensures you won't need to compromise speed or reach performance for network ...

The FiberMania 25G BiDi SFP28 80KM optical transceiver is a high-performance module designed for long-reach, single-fiber bidirectional transmission over standard G.652 single-mode fiber.

This product enables bi-directional data transmission over a single fiber, reducing the total number of fibers required for a system and achieving lower deployment costs and easier ...

This bi-directional 25G SFP28 transceiver enables high-speed 25.78Gbps data transmission over a simplex of single-mode fiber, effectively doubling fiber infrastructure capacity.

The 25G BiDi SFP28 80KM optical transceiver is a high-performance module designed for long-reach, single-fiber bidirectional transmission over standard G.652 single-mode fiber.
