

Norwegian Optical Cable Cutting Machine Manufacturer

Easy to set up, designed to make quick work of tough jobs in spaces too restrictive for most boring machines. Easily configured for difficult machining applications.

In our factories in Norway and Slovakia, we produce systems based on high-quality optical connectors and cables. We manufacture data racks in aluminum and have a production line for CAT cables.

At Novo Precision we are taking cable cutting to the next level. While most manufacturers who deal with cable are stuck manually measuring and cutting cable lengths, we have designed an automated ...

Nortra Cables offers custom cable and wire harness design assistance, prototyping and manufacturing services for medical, computer, communications, industrial, and electromechanical applications.

TINEX Group is a Norwegian technology company that supplies quality products and services in telecommunications and industrial components, representing international manufacturers like ...

Our semi-automated cut and strip machines are built for precise, efficient processing of a wide range of cable types, from single and multiconductor to coax, ribbon, and fiber optic cables.

Find your cable cutting machine easily amongst the 58 products from the leading brands (Schleuniger, RINCO, NICOLETTI, ...) on DirectIndustry, the industry specialist for your professional purchases.

Nokia optical network solutions for transport networks with advanced coherent optical engines, scalable open optical line systems, and AI-powered automation.

Our semi-automatic wire cutting machines provide reliable support for precise cable length processing across a wide range of wire types. Ideal for low- to medium-volume production, they ensure ...

With factories in Halden, Langhus and Rognan, and over 1,600 employees across the country, we can provide services and products for Norwegian conditions, and local support and expertise throughout ...
