

Cutting Edge Optronics is a vertically integrated manufacturer of laser diode bars, laser diode arrays, diode pumped laser modules, laser diode drivers, and complete diode pumped solid state laser ...

Laser Diodes, Modules Laser Diodes and Modules are semiconductor devices that can emit a beam of high intensity focused radiation, typically in the infrared, visible or ultraviolet wavelength ranges of the ...

The Lumics diode lasers are ideal for OEM integrators aiming to develop state-of-the-art end-user laser systems, featuring single emitters with a very long service life and up to four different wavelengths.

Customized diode laser and disk laser OEM solutions for a wide area of applications. Learn more about our competencies in diode laser and disk lasers.

Each product in our wide range of detectors, laser diodes, laser modules, optics, ...

We design and manufacture OEM laser diode modules tailored to your application requirements. Custom laser modules for every requirement.

These lasers combine highly reliable IPG single emitter diodes with delivery fibers for OEMs and end users in need of a simplified diode laser solution. These units include a range of output options ...

Whether you require high-precision instruments with ultra-stable wavelengths and output powers, high-speed modulation capabilities, or cost-effective solutions for standard applications, our diverse series ...

Each product in our wide range of detectors, laser diodes, laser modules, optics, and more is worth every Dollar (\$/USD). Our customized solutions cover all conceivable areas of application: from ...

Covering the entire value chain- from epitaxial wafer growth to laser system assembly - we have full flexibility in designing, assembling and packaging our high-power diode lasers in order to provide ...

Renowned for their vertically integrated approach, Jenoptik delivers comprehensive OEM laser solutions --from custom wafer design and epitaxy to fully integrated diode-pumped disk lasers and subsystems.
