

QSFP112 passive copper cable uses PAM4 signals for transmission, which doubles the rate. However, there are more stringent requirements for cable insertion loss. For detailed requirements, please see ...

The GIGALIGHT 400G QSFP112 pluggable direct attach copper (DAC) cable is available in both Active Copper Cables (ACC) and Passive Copper Cables (PCC) supports 400G Ethernet and InfiniBand ...

High-speed I/O passive cable assemblies that can deliver data rates as high as 400 Gbps with a variety of lengths or customized options for greater design flexibility.

Innoptical's IN-DAC-400G-Dxxx QSFP-DD passive copper cable assembly feature eight differential copper pairs, providing four data transmission channels at speeds up to 56Gbps (PAM4) per ...

800G Passive Direct Attach Copper Cable is compliant with the QSFP-DD-MSA ...

Si-Fly's HD co-packaged and near-chip systems provide the highest density 224 Gbps PAM4 solution in today's market. Electrically pluggable co-packaged copper and optics solutions (known as CPX) are ...

Description Realsea 400G QSFPDD-400G-CU1M DAC cables are high speed & cost-effective alternatives to fiber optics in 400Gb/s ...

400G QSFP112 Active Copper DAC Cable 4 Meters features 4 transmitting and 4 receiving 100Gbps PAM-4 channels, hot pluggable QSFP112 MSA Compliant - AscentOptics.

Active Copper Cable ACC2 assemblies offer longer lengths while still providing a low-power option for these interconnects. 400G PAM4 OSFP DAC applications are available in standard lengths up to 3 ...

1.6T direct-attached copper cables provide up to 1600Gbps aggregate throughput and can be applied in liquid cooling environments. Integrated with a heat sink and airflow channels, enhancing the cooling ...

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

800G Passive Direct Attach Copper Cable is compliant with the QSFP-DD-MSA and IEEE802.3ck, it's high-performance & cost-effective I/O solutions for LAN, HPC, and SAN.

Our OSFP Cable line-up is OSFP MSA compliant and protocol agnostic for worry-free integration into

200/400/800-Gigabit Ethernet and InfiniBand networks.

Designed to support 28G NRZ, 56G PAM4, 112G PAM4, and 224G PAM4 signaling, OSFP solutions provide a flexible platform for current and future high-speed interconnect needs.

USource QSFP-DD passive copper cable assembly feature eight differential copper pairs, providing four data transmission channels at speeds up to 56Gbps (PAM4) ...
