

Optical Fiber Power Meter Komshine KPM-35 with 7 Wavelengths -70~+10dB + Singlemode Multimode Fiber Light Source Komshine KLS-35-MS 850/1300nm+1310/1550nm (Self Calibration)

The VeEX FX40 is an optical light source used for insertion loss testing, fiber certification, and troubleshooting when paired with a compatible optical power meter.

This Power Meter and 1310 Laser Light Source Fiber Optic Test Kit was designed ...

WaveSource Pro series fiber optic light sources offer the fiber optic professional a wide range of options for their testing needs. Different combinations of multimode, singlemode, and VFL ports are ...

The OPM510 and OPM520 supports calibrated wavelengths of 850, 980, 1270 1300, 1310, 1490, 1550, 1577, 1623 and 1650nm. The Tempo Communications fiber optic sources are available in dual and ...

The CMA5 series (Optical Loss Test Set/Light Source/Optical Power Meter) offer superior accuracy and reliability for evaluating a wide range of optical devices and systems including WDM.

This Power Meter and 1310 Laser Light Source Fiber Optic Test Kit was designed to provide the test technician with an inexpensive, accurate, and easy to use infrared light reference for use in making ...

Photonix PX-D713 Power Meter and 1310 Laser Light Source Fiber Optic Test Kit for Datacom, LAN and CATV applications provides high accuracy with a 0.01 resolution meter at a substantial savings.

Orientek T25M Optical Power Meter and T15M-S Optical Light Source Single mode 1310/1550nm FTTH Test Tool OPM OLS OPM Wavelength: 850-1625nm -70~+10dBm OLS Wavelength: 1310/1550nm ...

FOLS-201 optical light source is a fiber optic tester with exquisite appearance and ergonomic design. It provides 1310nm and 1550nm dual-wavelength laser output for singlemode fiber measurements, ...

Compact OTDR for full automatic verification of optical networks, FTTH-PON, Metro and Core. Dedicated field test solution for installation and troubleshooting Ethernet links in access networks. ...
