

Rugged fiber optic cable is constructed so as to resist ultra-violet light and temperature fluctuations and may include features to withstand the requirements of being installed outdoors.

Extend your LC/SC Fiber Optic Cables length without replacing the original fiber cable. Durable and compact, high performance hybrid ...

2-strand fiber optic cable: Corning SM 9/125 OS2, indoor/outdoor micro distribution, CSA riser-rated. High-performance solution for versatile installations.

Extend your LC/SC Fiber Optic Cables length without replacing the original fiber cable. Durable and compact, high performance hybrid fiber optical adapter design with low insertion and return loss.

The Indoor / Outdoor 2 Strand Fiber Distribution Cable - Multimode OM2 50/125 micron, Riser Rated - 1000 FT is used in trunking, LAN, and distribution applications where small size, lightweight, and ...

This Outdoor Single mode FTTH Drop Fiber Optic Cable provides a proper connection for FTTH networks, the operation is simple; the use is more convenient, greatly improving the working efficiency.

Industrial-grade outdoor fiber optic cables with armor protection. Multiple configurations for long-distance transmission.

They are designed, manufactured and tested according to protocol and performance dictated by the industry standards. The quality of the components used to build our fiber optic patch cords ensures ...

Learn more about high-performance indoor/outdoor fiber cables by CommScope. Enhance connectivity with precision.

This indoor/outdoor cable has a water blocking aramid yarn strength member surrounding the fiber optic strands and a UV resistant outer jacket making it a very versatile and perfect choice for a large ...

This is a black 2000 foot spool of indoor/outdoor rated fiber optic distribution cable intended for long distance runs at high speeds. It is composed of 2 singlemode fibers (9 micron core) inside a water ...
