

Plastic 1 to 64 Optical Splitter Box

The 1:64 ABS box module type PLC Splitters have high performance in terms of low insertion loss, low PDL, high return loss, and excellent uniformity over a wide wavelength range from 1260nm to ...

This PLC splitter was housed in a compact ABS box and assembly with the SC/APC pigtails. Therefore, it offered strong protection for inner optical components and allowed quickly installing in the field.

This 1:64 PLC Splitter has the characteristics of compact structure, stable performance, and easy management. It is widely used in passive optical network (PON) systems, optical fiber ...

Encased in durable ABS plastic modules, these splitters are ideal for applications such as FTTH, FTTX, PON, GPON, and other optical communication systems. Advanced PLC technology ensures low ...

With a 1:64 ratio, it provides efficient signal splitting. The package includes 2pcs of optical splitters, allowing for easy installation and use. Upgrade your optical fiber network with this reliable ...

This PLC splitter was housed in a compact ABS box and assembly with the SC/APC pigtails. Therefore, it offered strong protection for inner optical components and ...

The 1x64 Singlemode ABS Box PLC Splitter is a high-density optical power splitter designed to divide a single input fiber into 64 uniform output channels with exceptional precision and reliability.

PLC Splitter Modules are available in the form of either plastic module cassette (an ABS box) with ruggedized fiber jackets of 2mm and up to 3mm, or LGX metal box for plug and play splitter ...

Find many great new & used options and get the best deals for 1:64 optical sub-box insert type splitter optical splitter 64 core splitter box at the best online prices at eBay!

The 1X64 ABS Box PLC Splitter With SC Connector is a versatile and efficient solution for distributing optical signals in optical fiber networks, making it suitable for applications such as FTTX (Fiber to the ...

Fiberinthebox 1x64 Fiber PLC Splitter can distribute or combine 1 optical signal into 64 outputs fibers.
