

This reference design provides lightning surge protection solution for Power over Ethernet (PoE) Power Sourcing Equipment (PSE) systems based on TI's TPS23861 PSE controller.

Lantronix's PoE switch family supports the latest PoE standards and are the ideal PSE for any network. Lantronix offers both Enterprise PoE switches and Hardened PoE switches, PoE can be delivered to ...

Learn about IEEE standards and find the perfect PoE switches, media converters, extenders, and injectors to ensure future-proof, reliable network infrastructure ...

This article discusses MPS's comprehensive suite of power management solutions for a wide range of switches, including PSE, boost, high-voltage buck/flyback, ...

This article discusses MPS's comprehensive suite of power management solutions for a wide range of switches, including PSE, boost, high-voltage buck/flyback, high-current buck, and 2A to 3A buck.

Learn about IEEE standards and find the perfect PoE switches, media converters, extenders, and injectors to ensure future-proof, reliable network infrastructure with FS PoE PSE options.

For different applications required by different enterprises and client users, PLANET offers PoE switches ranging from full managed PoE switches, industrial PoE switches to standard PoE switches that ...

Learn what PoE PSE is, its types, like PoE switches and injectors, and how it powers network devices. Find answers to common questions and tips for choosing the right PoE Switch.

EtherWAN's PoE Ethernet products deliver high power output to support the most demanding PoE-powered devices, including PoE Switches, media converters, and Ethernet extenders.

We offer a configurable system firmware solution (FirmPSE) for Ethernet switch designers, as well as a portfolio of interoperable powered devices (PD) and power sourcing equipment (PSE) controllers.

We offer an end-to-end portfolio of Power over Ethernet (PoE) solutions comprising PoE ICs and PoE systems such as PoE midspans, PoE injectors and PoE switches.

The seventh-generation PoE PSE chipset from Microchip is a power-efficient and surge-focused solution for PoE switches, PoE midspans/injectors and wireless routers.
