

# Price list for PAM4CFP2 for data center interconnects

Their solutions are based on open networking standards and are used in metro and regional network applications that increasingly rely on data center services and specifications.

Learn more about Samtec's flexibility and innovation during this uncertain era, including tariffs, logistics, pricing, and lead times. [Learn More](#). Si-Fly<sup>®</sup>; HD co-packaged and near-chip systems provide the ...

Explore the latest interconnect and power solutions supporting next-generation humanoid robotics, warehouse automation, and intelligent control systems. [Read this blog to learn more](#).

Marvell PAM4 optical digital signal processors (DSPs) power the optical interconnects inside the world's cloud and AI data centers, and support both Ethernet and InfiniBand architectures.

This optical transceiver comes with a maximum link length of 100m on OM4 multimode fiber, and is capable of a 400Gb/s data rate with each channel transmitting up to 53.125Gb/s.

With a comprehensive interconnect solution, including cooling extenders, AOCs, and optical modules, we cater to diverse user requirements, from 5G base stations to data centers.

The OSFP Connector System is ideal for hyperscale data centers, AI and machine learning clusters, and high-performance computing environments that provide massive bandwidth while relying on efficient ...

200GbE QSFP56 SR4 liquid/immersion cooling transceiver, 3M MPO-12/APC Female Type A plug, 8x106.25GBd data lanes, for short-range MMF data communication up to 100m, ideal for high-dense ...

200GbE QSFP56 SR4 liquid/immersion cooling transceiver, 3M MPO-12/APC Female Type A plug, 8x106.25GBd data lanes, for short-range MMF data ...

o Carrier Networks and Datacenters o Large datacenter campus connectivity o Metro area networks o Mid- to long-reach, high capacity, multi-100 Gbps links CFP2 and CFP4 interconnects transfer data ...

These small, modular optical interface transceivers offer a convenient and cost-effective solution for an array of applications in the data center, campus, metropolitan-area access and ring network, storage ...
