

Price range of skeleton-type bundled optical cables

Optical glass: Standard for visible light illumination; cost-effective. Plastic optical fiber (POF): Highly flexible and rugged, suitable for short-distance visible light, but with higher attenuation. Mid-IR fibers: ...

FiberTech Optica manufactures custom fiber optic bundles for distributing and shaping light in spectroscopy, laser, and instrumentation applications. Contact us!

The number of fibers in a fiber optic bundle can vary widely, from just a few fibers to thousands. They may be arranged in a random configuration, or mapped to specific positions in a linear or two ...

Manufacturing custom bundle configurations is our specialty. Our high-quality fiber optic bundles can be made with any fiber and your choice of several configuration possibilities.

We offer these bundles with a fiber core size of $\pm 200 \pm 181 \mu\text{m}$ and either 19 high-OH fibers or 19 low-OH fibers. All three ends of the cable are terminated with SMA905 connectors with stainless steel ...

A Fiber Bundle is composed by a few to tens of thousands raw fibers, metal sleeves, flexible stainless steel tube and the like. It is possible to arrange the bundle in many fiber paths such as a straight type ...
