

Purely Domestically Produced Optical Switches

GEZHI 1x4T optical Switch are based on Opto-mechanical technology with high reliable quality. These switches are designed for optical Multiplexers, cross-connect and network switching for ...

The fastest, smallest, most reliable optical switches in the industry. Used in medical devices, undersea cables, quantum computers, underground and outer space.

Made for efficiency, our optical switches have lower power consumption, enabling greater savings for any network. The convenience of our switches makes them applicable for spectroscopy, medical and ...

Optical switches are utilized to disconnect, bypass and reroute fiber optic communications. All of these optical switches are purely optical path, there is no optical to electrical to optical conversion.

Mouser is an authorized distributor for many optical switch manufacturers including Broadcom, Omron, onsemi, Sharp Micro, TT Electronics, Vishay & more. Please view our large selection of optical ...

Optical switches are commonly used in optical add/drop applications that need to be reconfigurable. They are also used for network switching applications for fault protection. Optosun's opto-mechanical ...

ACP offers a variety of technologies for its switches, from opto-mechanical to MEMS to solid state. Optical switches direct light along different paths and fibers. They are an important part of guiding light.

GEZHI 1x4T optical Switch are based on Opto-mechanical technology with high reliable quality. These switches are designed for optical Multiplexers, cross ...

This section provides an overview for optical switches as well as their applications and principles. Also, please take a look at the list of 18 optical switch manufacturers and their company rankings.

Fiber optical switches from WEINERT are based on a micro-mechanical/micro-optical design featuring high-precision optics. These offer excellent parameters, superior flexibility, and long-lasting stability ...

Worldwide manufacturer of industrial automation components including optical & optoelectronic switches. Available as rotating cam limit switches with optical photo eyes.
