

Sierra Leone Industrial-Grade 10G Optical Module

Featuring an operating temperature range of -40°C to 85°C, this industrial fiber ...

10G SFP+ LR transceiver supports up to 10km link lengths over LC duplex SMF fiber. This transceiver is compliant with SFF-8431, SFF-8432, and IEEE 802.3ae standards. Digital diagnostics monitoring is ...

Featuring an operating temperature range of -40°C to 85°C, this industrial fiber optic transceiver is suitable for 10GBASE Ethernet, 4G wireless network and can work in harsh industrial environments, ...

The RS-10G03-31-10DI dual-fiber bidirectional ultra-compact optical transceiver module integrates the transmitting and receiving components within a compact metal housing, significantly enhancing its ...

A practical, engineer-grade guide to 10GBASE-LR: what it is, 1310nm single-mode SFP+ specs, optical budget examples, deployment best practices and troubleshooting.

This transceiver module, compliant with MSA SFP+ specifications, uses a single-mode fiber (SMF) with a wavelength of 1550nm. With a maximum reach of 100km, it is ideal for long-distance applications.

10GBASE-LR SFP+ transceiver module with 1310nm wavelength and 10km reach over LC SMF. Reliable 10G solution for data centers and metro networks.

The RS-10G03-31-10DI dual-fiber bidirectional ultra-compact optical transceiver module integrates the transmitting and receiving components within a compact ...

Whether expanding network capacity or optimizing existing infrastructure, this module offers a reliable, high-performance optical solution for long-distance 10GbE connections.

This series uses a pair of single-mode optical fibers with a center wavelength of 1310nm, a distance of up to 10km, and an optional industrial-grade operating temperature range.

Buy 10Gtek Industrial Grade 10GBase-LR SFP+ Transceiver, 10G 1310nm SMF SingleMode Fiber Optic Module, up to 10km, for Cisco SFP-10G-LR, Meraki MA-SFP-10GB-LR, Ubiquiti UniFi UF-SM-10G, ...

10G SFP+ LR transceiver supports up to 10km link lengths over LC duplex SMF ...

This 10G SFP+ transceiver is applied in various application scenarios such as data centers, campus networks. It's also fully compatible with almost all Intel devices.
