

# Sri Lanka New Fiber Optic Sensing Technology Company

A Gates Cambridge Alumnus has formed a partnership between his university, Cambridge and Oxford universities and a local engineering company to introduce a cutting-edge technology to ...

It is headquartered in Massachusetts, USA, with a specialist facility in Sri Lanka. Its broad range of sensor technology is applied to drive innovation of custom sensor solutions.

FiberSense has focused on applying Distributed Fiber Sensors in the toughest environment they can be deployed - the noisy urban setting of cities around the world. Our breakthrough algorithms allow the ...

As a leading independent provider of fibre optic-based distributed sensing solutions, Silixa exists to secure a safer, more sustainable future for people and planet.

Sri Lanka Fiber Optic Sensor Directory provides list of Made in Sri Lanka Fiber Optic Sensor Products supplied by reliable Sri Lanka Fiber Optic Sensor Manufacturers, Traders and Companies.

Sri Lanka Telecom PLC (SLTL) is a prominent telecommunications provider in Sri Lanka that offers a variety of broadband solutions, including Fiber technology. They cater to a diverse customer base, ...

By adopting SDM, telecom providers like SLT-Mobitel and Dialog Axiata can enhance network capacity without extensive new cable deployments, driving Sri Lanka's digital economy forward.

Find out more about our Embedded Fiber-Optic Sensing technology by contacting us. Low-cost, compact sensing systems and customized algorithms for high-res monitoring of fiber optic sensors in ...

Our dedicated team ensures seamless, durable, and efficient connections for your optical fiber networks. Whether it's extending the reach of your network or maintaining its integrity, we're here to splice your ...
