

In response to this need, Souriau offers a wide range of fiber optic solutions for high speed networks in harsh environments. Fiber optic is the best solution when high data-rate, EMI immunity and weight ...

As a leading supplier of advanced fiber optic components, Molex has an extensive product offering that includes a full range of optical solutions from connectors, adapters and cables to backplanes and ...

These specialized fiber system components terminate the optical fiber within the connector system, aligning and securing the fiber to ensure proper signal transmission.

Fiber Couplers and Fiber Collimators made from amagnetic titanium for coupling into single-mode and polarization-maintaining fiber cables or for producing a collimated beam (low divergence beam) with ...

Among these components, fiber connector types are essential to network performance, reliability, and scalability. This guide will walk you through the most common fiber connector types, ...

C-MTitan(TM) is the high density solution for inside the box applications in harsh environments. A cartridge protects a standard MT ferrule to provide a secure, high performance and easy connection.

Shop DigiKey's large in-stock selection of Fiber Optic Connector Assemblies. View inventory, pricing and order now for same day shipping!

ECIA Authorized Fiber Optic Connectors components are available from TTI. TTI offers inventory, pricing, & datasheets for Fiber Optic Connectors components from major suppliers.

To guarantee precision fiber optic termination of the stem, cable assemblies are provided (rather than individual connectors) and will be shipped fully FAT tested to meet specified requirements

External components, connector shells and inserts are often metal and can be aluminum, stainless steel, brass, titanium, or even composite to meet the demanding harsh environment conditions.
