

Compared to an LC duplex connector, the CS connector allows you to twice the density of patch panels. It allows for more fantastic cable management space and improved performance ...

The Consortium enables industry participants to develop new technologies in order to benefit the industry by facilitating accelerated adoption of CS based high density connectivity solutions.

We provide customization options for CS connectors to meet specific customer needs, including different fiber types (single-mode, multimode), cable lengths, and connector configurations.

Explore the benefits of CS optical connector fiber optic cables for 200G, 400G, and 800G networks. Compare CS connectors with LC connectors and SN connectors and understand how to ...

The CS(TM) adapter can link two CS(TM) connectors precisely, allowing the light sources to be transmitted at most and lower the loss as much as possible. And this adapter has a smaller size and higher density ...

The CS#174; Standard connector is suitable for termination to either 2.0 mm or 3.0 mm round cable that incorporates a ruggedized jacket and internal strain relief.

Shop 2025 Upgraded NACS to CCS1 Electric Vehicle Adapter,Compatible with Tesla Supercharger to CCS Charger Adapter 500 A/1000V,Fast Charger for V3/V4 DC Charging Stations,Fit for Ford, GM, ...

The new small form factor CS Connectors allow for a reduced connectivity footprint which enables more efficient space utilization in hyperscale, multi-tenant and large data center environments.

The 2025 Upgraded Tesla Supercharger to CCS1 Charging Adapter has received overwhelmingly positive feedback from users across various electric vehicle (EV) makes.
