

The Acterna OLP-15C, OLP-16C and OLP-18C are compact, high performance optical power meters for installation, maintenance and repair in fiber optic networks. They can be used on their own for simple ...

Scalable optical measurement for high-volume photonic testing Keysight optical power meters measure optical signal strength, providing multi-channel measurement processing and system control while ...

VIAVI offers fast, cost-effective, and easy-to-use power meters for installation and maintenance of single mode and multimode fiber optic networks and advanced, photonic-layer power meters for lab and ...

Return to Base Warranty, Any type of power failure/burn / physical damage / tempered seal will void the warranty. Within warranty period item return buyer has to pay for return shipping.

WWG OLP-18C Handheld Optical Power Meter. +26 dBm max input. One unit with FC connector and one with universal 1.25 mm adapter.

"This WWG OLP-150 Optical Power Meter module is in optimal condition, tested to OEM specifications and will be shipped with a full calibration report.

Optical Power Expert - connected optical power meter, Power meter with Bluetooth connectivity, a wide touchscreen and best-in-class optical performances. Designed for extended use in the field, the ...

The WWG OLP-150 Optical Power Meter Module is a high-precision fiber optic testing device designed for accurate power measurements in telecommunications, broadband networks, and optical research.

The Acterna OLP-15C, OLP-16C and OLP-18C are compact, high performance optical power meters for installation, maintenance and repair in fiber optic ...
